APPENDIX · ILLUSTRATIVE MOCKUP · SIMULATED DATA

Whole performance · Instagram and Facebook

Meta Business Suite Insights › Overview for Laboratoires Nihel, with the same dates as the Instagram mockup: July as Instagram's "30 days" (2–31 July), August, and the launch window (5 July – 1 September). Instagram figures come from `scripts/model.py`, Facebook figures from `scripts/facebook_model.py`; the totals below are their sums.

Instagram + Facebook by period

Metric	July 2026 · last 30 days			August 2026			Whole launch window		
	Instagram	Facebook	Total	Instagram	Facebook	Total	Instagram	Facebook	Total

Net followers	1,603	0	**1,603**	1,692	0	**1,692**	3,190	0	**3,190**
Reach / viewers	77,564	3,557	–	70,599	2,796	–	138,211	5,493	–
Followers at end	34,033	105,000	–	35,725	105,000	–	35,778	105,000	–

Reach, viewers and followers are not added: the same person can follow both accounts and see both, and Meta does not deduplicate people across platforms. Instagram counts likes, comments, shares, saves and story replies as interactions; Facebook counts reactions, comments and shares. Facebook has no publication before 5 July, so its July (30 days) equals 5–31 July. Facebook followers stayed at 105K (observed), so its follows and net followers are 0.
